England Rushes Military and Naval Preparations.

RUSSIA MAY BE BACKING FRANCE.

Believed In Paris That Maravieff Promised Support In Reopening Egyptian Question-Marchand May Be Withdrawn.

LONDON, Nov. 1.-The British naval preparations are being pushed with great activity, and there is a spirit of | Special Carrying Troops From Hallunrest and uncertainty in London. The aggressive tone of some of the French papers and the vigorous and well de**fined** movement for national defense in England and France alike are not reascuring in the least.

The British emergency squadron is gathering at Devonport with all possible speed. Seven battleships and one eruiser have been thus far designated to join this squadron. Officers and sailors have been hurriedly recalled from leave of absence, several battleships and cruisers at Portsmouth are taking their full crews on board, and other warlike preparations are being made. A number of signalmen now on duty

with the British channel squadron, which arrived at Gibraltar yesterday, have been ordered home for service, it is presumed, on board the auxiliary ermisers, if the latter are required for active service.

A sensation has been caused by the arrest yesterday of a supposed Russian spy at a fort near Harwich. The man was already under surveillance and went to a redoubt, where he tried to obtain some information from a sentry regarding the fortifications. He was promptly arrested, and inquiries are being made regarding his antecedents.

It is also asserted that the commanding officers of the London volunteer regiments have received orders to prepare for immediate mobilization, and it is asserted that the different artillery corps have been informed as to the forts on the southern and eastern coasts to which they have been al-

The advices from Paris in the special dispatches yesterday morning add little to what was already known regarding the situation at Fashoda. It is believed that Captain Baratier is taking only verbal instructions for Mafor Marchand.

The idea prevails at the French capital that Count Muravieff, the Russian foreign minister, while there on his recent visit, promised Russian support in reopening the whole Egyptian question and that Major Marchand will be instructed to fall back and maintain his occupation of all Bahr-el-Ghazel

burgh, and Thomas Burns, seaman, were injured; also a man named Smith from Papineauville, Que., who was stealing a ride."

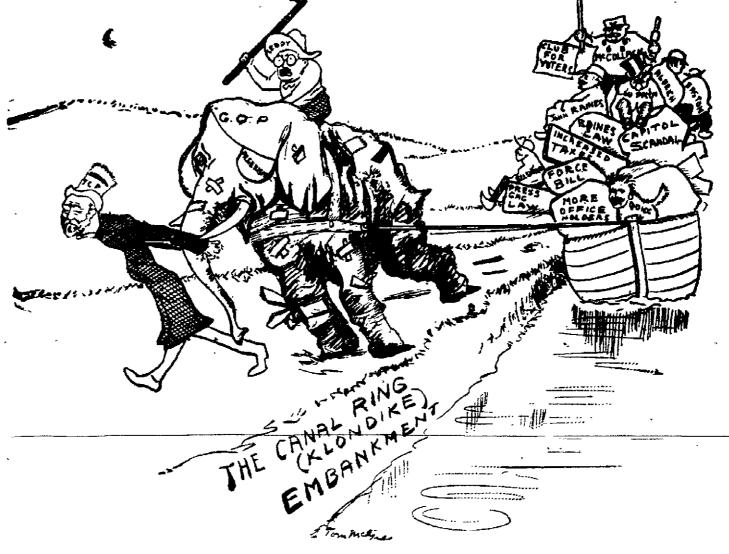

The naval train left Halifax Thursday night on the arrival of the steamer Carthaginian from Liverpool, with drafts for the British Pacific squadron. The train consisted of six colonist cars, a baggage, tender and locomotive, and carried 133 salors and 11 officers. Two sailors had suffered so severely from sea sickness they remained over at Halifax in the military hospital. The train was made up under imperial government officers' inspection and was being rushed to its destination in view of the Anglo-French controversy It was a special and had a glear track and was due to arrive at Esquimault one week

THE SPANISH REPLY

Commissioners Must Consult Madrid Before It Is Given.

WE REFUSE TO ASSUME ALL THE DEBT

Only That Part Covering "Panific Expenditures" Will Be Allowed. What These Are-Will Spanish Commissioners Withdraw?

PARIS, Nov. 1 .- The American peace commissioners, each of them carrying a portfolio containing records and personal memoranda, left their headquarters in the Continental hotel for the meeting with the Spanish commissioners at the foreign office just before 2 o'clock yesterday afternoon.

The president of the Spanish commission, Senor Montero Rios, whose health at one time was so precarious as to threaten an indefinite adjournment of the sessions of the commissions, had improved to the extent of enabling him to attend the meeting. He arrived at the foreign office in a closed carriage, with his colleagues, just after the Americans reached the meeting place.

Soon after 2 o'clock the ten commissioners met, while their carriages remained drawn up on the graveled drive outside.

Secretary Moore, upon the request of Judge Day, passed to Mr. Ferguson, the interpreter, the formulated demands of the United States regarding the Philippines, which were read to the Spaniards in their own tongue by a rapid rendering from the English, in which they were written. Although the Spanish commissioners did not betray anxiety, their attention to the reading was keen. They had anticipated that the United States would take over the islands, but the terms and details of the transfer had all along been a subject of speculation.

The reading disclosed the fact that the United States government had determined to possess for itself certain territory and parcels of land bounded by and lying within such parallels of latitude and longitude as marked the limits of the Philippine archipelago. The United States do not propose assuming the Philippine debt of \$40,000,-000, but they are willing to be responsible to Spain for a sum of money equal to the actual expenditures by Spain in the Philippines for the advantage of the islands and for the good of their people, for permanent betterments and for improvements, both physical and mental.

The reading of the presentment specifles that the United States will reimburse Spain to the extent of her "pacific expenditures" made in the archipelago. This phrase "pacific expend tures" is employed to differentiate the expenditures by Spain in combating insurrections in the Philippines. The one is felt by the American commissioners to be a fair burden upon the acquiring power, while the other and latter class of expenditure is held to have been logically assumed by Spain as the inevitable hazard to a nation resort bg to arms to enforce order in its own turitory.

Such is the determinative and therefore the vital portion of the presentment made by the American commissioners and it is to be observed that, while the main proposition as to possession and financial responsibility is clear and definite, many details have been left to the development of the discussion between the two commissions. Thus, while the Spaniards are quite certain that the United States intend to reimburse them for "pacific expenditures," they remark that they are not enlightened as to whether the Americans expect to inderse the Spanish ob-Hgitlons to the extent of 'pacific exrenditures" in the irchinolago or whether they will hand Sozia a lump sum of getå large enough to cover Spain's ontlay so designate (

Possibly the American commissioners

themselves are not at this moment fully determined on this point. It is unlikely, however, that the Americans will care to become identified in the slightest degree with Spain in her responsibility to her creditors. The clearer method seems to be to hand to Spain spot cash, or something as good, and to bid her apply it on her debts by whatever name known or to put it in her wallet for whatever use she may elect.

While the United States have designated "pacific expenditures" as those they will reimburse to Spain, the presentment of the American commissioners did not demand either a schedule or an inventory of the same from the Spaniards. But the suggestion naturally raises an inquiry as to the kind and quantity of Spain's "pacific expenditures" in the Philippines, and some light may be given on that matter now.

There is considerable traffic between the islands, and some time ago a system of lighthouses became necessary. Spain set out to supply this, and pro-jected 48 light stations. Of these she has already constructed 17 of the first class and 16 of the second. What they cost is not yet known here, but in American waters those of the first class cost from \$25,000 to \$250,000 each, so that on an average basis of the minimum cost in the United States Spain's 33 lighthouses may represent an outlay of

Spain has constructed breakwaters at Manila at an expense not yet known here and wharfs of small value along the Pasig river. She has recently built barracks for 4,000 men, now occupied by American troops, the cost of which is not yet ascertainable.

At Cavite Spain had built a naval station, which, before it was sacked by the natives, was said to be equal to the Mare Island station, and may then have been worth \$2,500,000. Whether or not the last two items can be strictly designated "pacific expenditures" must be determined in conference, but the lighthouses, water improvements, barracks and naval station are necessary to the United States as the owner of the Philippines and are deemed worth a fair

Spain has also built some schoolhouses, which the Americans are willing to take over at cost.

The Spanish commissioners listened attentively, though not without some evidence of impatience and surprise, as the financial suggestions in the American presentment, and finally asked until Friday to consult the Madrid government and make reply.

Adjournment was then taken to that lay. After the conference dissolved the lpanish commissioners expressed the opinion that the American demands would create in Spain, as they had upon her commissioners, an exceedingly grave impression. Were the Spanish commissioners pushed to a final determination at once, they would reject the American demands, but the changing of tone of the Spanish press recently urges the consummation of a treaty of peace, however rigorous, the argument being that although the Spaniards bow to the American demands the commissioners do not acknowledge the justice or admit

the legality of them The Spanish commissioners feel that the United States, to all intents and purposes, have not offered any financial inducement to Spain to cede by treaty any part of the Philippines. Had the American commissioners even offered to take over the entire Philippine debt of \$40,000,000 the S, amards affect to feel that it would have been as nothing, and they regard yesterday's propositions as so measer as not to warrant even a schedule of Spain's "pacific expenditures" in the archipelago.

Madrid Surprised Again.

MADRID, Nov 1 The news that the Spanish peace con anssioners at Paris had referred to the government a format demand of the American commissioners for the case are cession of the entire Philippine group caused the greatest suspicio in Madrid. London Times Approves Our Course, LONDON, Nov. 1.-The Times editorially this morning expresses its frank satisfaction at the decision of the United States commissioners to take the Philippines. It says: "The arrangement is undoubtedly the

The editorial then proceeds to back up the recent contention of its Paris correspondent, who has argued that Spain could only meet the Cuban debt by, sacrificing her foreign bondholders, "who, by a strange anomaly, would thus have to pay for the independence of Cuba.'

The Daily News editorially echoes the views of The Times regarding the Phil-

ippines and says:

"For Great Britain the American retention of the archipelago should be nothing but a gain. In saying this we assume that the United States will not extend their exclusive tariff laws to the colonies, but will allow the manufacturers of the world free access."

GENERAL WORTH PROMOTED. Made a Brigadier General In the Regular Army.

WASHINGTON, Nov. 1 .- The president has appointed Colonel W. S. Worth of the Sixteenth infantry in the regular service and a brigadier general in the volunteer service to be a brigadier general in the regular army, vice Coppinger, retired. General Worth was wounded at San Juan and will be placed on the retired list immediately.

General Worth probably will be an invalid during the remainder of his life. He had a good record in the civil war, having been brevetted twice for gallant and meritorious conduct. He has already sent in his request for retirement, and this will leave another vancancy in the grade of brigadiers. Several applications for promotion to this rank, with an understanding that retirement shall follow, have been made, and the matter is being considered by the president. The officer who has been selected for the permanent place is Major General Thomas M. Anderson, second in command in Manila, He will serve about a year before retiring. Paying Soldiers at Camp Weade.

Brotherhoods - Spaniards Guard Against Descention of Herocc' Graves-The Cuban Congress.

HAVANA, Nov. 1.-Barring unforeeen contingencies, Colonel Lee and Colonel Hecker of the United States transportation and camp site commissions will leave tonight for Washington in response to a summons from Adjutant General Corbin. The only seemingly reasonable explanation of their abrupt recall-in the absence of any personal reason affecting either officer-is the impatience of the war de partment to learn viva voce just what the commissions have really accomplished during the whole month they have been here. With the exception of choosing a landing place at Playa de Marianao and beginning the construction of a pier, which, ten chances to one, will be washed away by the first norther, it is a matter of extreme difficulty to discover beneath the thick mantle of mystery with which the commissions have covered their actions and conclusions exectly what has been ac-

Yesterday afternoon the Spanish evacuation commissioners sent to the Hotel Trocha for the American commissioners a note describing the location of a monument erected on Cabanas heights over the grave of a corporal and ten Spanish soldiers who greatly distinguished themselves in the ten years war and requesting that when the island is turned over to the Cubans provision be made that the grave be respected. This provision will of course be inserted as a clause when the island is given up to the Cubans, as is the custom of every civilized country regarding the graves of the brave whe died in battle and the monuments raised to their memory.

The Spanish note regarding the transfers of government properties to the reigious orders here clearly shows a clear title to the properties in question in favor of the Jesuits, Paulists and Carmelites. The documents issued and recorded on Sept. 6 and 7 last were not transfers taking effect on those dates but certificates confirming vested titles to properties which have been occupied for upward of 35 years by the orders holding the titles. Mr. Gould, legal adviser to the evacuation commission, her been investigating the matter, and the commissioners seem satisfied with Gen eral Blanco's statement.

Today the Spanish commissioners will notify the Americans that the entire province of Puerto Principe will be evacuated between Nov. 10 and 20.

Advices from Santa Cruz del Sur a majority of the representatives of the Cuban army at the meetings held there are in favor of the dissolution of the Cuban insurgent government and the appointment of a commission to go to Washington for the purpose of thanking the American government for its intervention in favor of the Cubans and to put themselves unconditionally at the disposition of the Washington authorities, so as to enable the latter to develop their programme without any hindrance. The Cubans are also said to be in favor of the disbandment of the insurgent army.

NORTH CAROLINA'S TROUBLES. Fight Likely if Negroes Run a Tick-

et In Wilmington County. WILMINGTON, N. C., Nov. 1.-Notwithstanding the more peaceful outlook that has prevailed for the past two

days, the feeling of unrest begins to show itself again. There is a disquieting rumor that the negroes are seriously considering the question of running a county ticket regardless of the wishes of Governor Russell. The unexpected arrival of Governor

Russell last evening gives rise to the hope among conservative people that Russell has heard of the movement of the negroes to place a county ticket in the field and has come here to suppress it if possible. There is little doubt that if a Re-

publican ticket is brought out for county officers the situation here will become more serious than ever. The Democrats have carried out their part of the arrangement made with the governor by changing their candidates for the lower house of the legislature, and they are furious over the talk of a negro county ticket.

The editorial in the negro paper, The Record, of yesterday afternoon is considered a positive indication that the negroes do not consider the question of a county ticket finally settled.

EASY FANCY WORK.

Expeditions Methods and Simply Delightful Results in Ribbon Embroidery.

Fancy work to hold its devotee at this season must assume a decidedly Eght and facile character, and nothing apparently fits in better than the "rewived" ribbon work. This ribbon work of to-day would hardly be recognized w our great-grandmothers as such. In place of the laborious processes with which they secured rather stilt-'ed results we have installed an expeditions method, of which the Delineator has the following to say:

Now, a far more realistic and artistic effect is gained by threading the very narrow ribbons made for the purpose in a needle with a long eye suf-Reiently large to carry the ribbon through the material easily. SIT ON THE FLOOR.

Famous English Physician Declares This Position to Be a Natural and Restful One.

An eminent English physician, Sir James Crichton Browne, who has wonderful aptitude for making medical subjects interesting to the public at large, announces that men and women would derive great benefit from sitting on the floor instead of chairs. Women would benefit even more than men by the practice.

The position of sitting on the floor or the ground is more natural than that of sitting on a chair. It was once general with the entire human race. It is both healthy and natural.

The exercise of getting up from and down to the floor is beneficial. Through the general adoption of the sitting position among the civilized races many muscles have become stiff or obsolete. Persons who sit on the floor have strong back and thigh muscles. Turks, tailors and shoemakers are examples of this fact.

If you sit on the floor you can change your attitude as often as you please, and can enjoy an endless variety of pose, and however often you alter it and however you may place yourself, there is never any chance of your falling off. If you sit on the floor you can achieve all kinds of comfortable positions which it is impossible to obtain even with the easiest of easy chairs. The influx of visitors need never cause anxiety to the well-constituted mind on the subject of chairs. All he has to provide is a quantity of cushions—cushions of every size and shape. Let guests select any they please, and it will be their own fault if they are not comfortable and happy. It is, of course, only desirable to sit

The drop kick differs from the punt in that when the ball is dropped from the hands it is allowed to touch the ground. The instant it rises it is lifted into the air with the toe. A goal kicked from a "drop" counts five points in the scoring.

The punt is the most common form of kicking on the football field. The ball is dropped from the hands, and before it touches the ground is propelled forward with the toe. No scoring can be done with this form of kicking. In this it differs from the "drop."

More than \$15,000,000 is spent annually in the United States for golf. It all goes for the pleasure of swinging iron mallets and skillfully driving gutta percha balls over hazards and bunkers. In proportion to the number of persons engaged it is the most expensive amateur sport in the world.

Chicago as well as the other western colleges has abandoned the western football rules and will content her self hereafter with the eastern code An agreement was reached at the Auditorium hotel previous to the western intercollegiate conference by representatives of Chicago, Illinois and Northwestern.

-Albert Young, who went to Michigan everal years ago, is visiting at John Young's.

-All people residing in this vicinity, who are not members of the Horse Thief Detective Society, would do well to join at once. No efforts are spared in apprehending the guilty party. If the horse is not found the owner will receive a paid equivalent. The membership fee is only a dollar, and each member will be taxed to help defray expenses in case a horse is stolen. There is a snug sum in Treasurer Aldrich's hands at present. D. C. Thompson is president, A. J. Harrison vice president, L. A. Aldrich treasurer and Niven H. Clark secretary. The society was organized about seven years ago, and but one horse has been stolen in this vicunty since; that one was promptly located and brought back to Johnson.

THE TAMPA CARMEN.

Generally the Is Old, Black and Wrinkled-The "Reader" to Cigermakers.

If the original Carmen had been employed in a Tampa cigar factory she would not have been a cigarmaker, but a stripper of tobacco leaves, says the Boston Transcript. That is the work that women do in Tampa eigar factories; all the rest seems to be done by men. Carmen, as seen here, is seldom attractive. Generally she is old and black and wrinkled, and sometimes she has a black and unpleasant-looking eigar in her mouth. At times, however, she is picturesque in a high degree. It seems to be all one way or the other with her. Her work is of little consequence compared with that of the men in the great room upstairs who actually make the cigars. They are here by hundreds, chiefly in one great apartment. The first thing that strikes the at-

tention of a visitor unused to this feature of the cigarmaking business is the "reader." In a sort of rude pulpit, or lecturn, placed against the wall about midway of the room, sat a man who was reading in Spanish at the top of his voice. There is not much noise about the making of cigars, and little need of conversation between the men. They are, therefore, able to hear this reader, though ic make them hear he has to declaim very loudly. It must be ruinous to his voice. The man was reading something political from a newspaper when I was there. I am told that he often reads novels. The proprietor told me that the reading is a good thing for the work, the men working more diligently and product-Ively with it than without it. -Thevpay the reader out of their own wages.

LADY SMOKERS AT COURT.

Protest of Russian Women at the Canring's Edict Against Cigarettes.

1 learn from St. Petersburg that many of the ladies of the czarina's household are fearfully upset by a request-equivalent, of course, to an order-made by their exalted and charming mistress, to the effect that they should discontinue the practice of smoking cigarettes in her presence, says a Berlin correspondent of the London Telegraph. It is not easy to throw up cigarette smoking even at the behest of one of the sweetest women in existence: and ladies find it more difficult to give up such physical pleasures than men, when the reasons given for doing so appear to them to be inadequate. The fair sufferers have, therefore, drawn up a petition to the czarina praying that she will recall her dreadful ukase. The petitioners have pointed out that ladies are permitted to smoke eigarettes at all the courts of Europe, that among the various crowned heads and princesses of the royal blood who smoke they can mention the downger ezarina and her sister, the empress of Austria, the queen of Roumania the queen regent of Spain, and the queen of Portugal -all of whom are inveterate smokers. Above all, they venture to point out that the illustrious lady most devoted

to the fragrant perfume of the narcot-Ic herb is Princess Irene, wife of Prince Henry of Prussia, and her majesty's own sister. The ladies of the imperial court are anxiously waiting to see if their august mistress will relent.

Transmitting Sound Through Tubing. An interesting series of experiments in transmitting sound through tubing is reported from Germany. The piping conveying compressed air into the workings of a coal mine was employed. The greatest length to which a sound could be conveyed in a straight pipe without branches was found to be 1,500 feet to 1,700 feet. For distances up to 2,660 feet the best kind of pipe was that with a diameter of about 20 inches; beyord that distance larger pipes were more effective. In distances up to 150 feet a diameter of eight

parliamentary soirces asked Bismarck which of the European plenipotentiaries who had attended the historic congress he regarded as the first diplomat. "Ah, that I cannot tell you," answered the prince, with a smile; "but certainly the second was Lord Beaconsfield." The distinction between the parish

rector and the curate in the old days is illustrated by a story of an old rector. Returning to his parish after his autumn holiday, and noticing a woman at her cottage door with her baby in her arms, he asked: "Has that child been baptized?" "Well, sir," replied the courtesying mother, "I shouldn't like to say as much as that, but your young man came and did what he could.'

Dr. David Kennedy's Favorite Remedy frequently cures several members of a family. NO REASON FOR A THIRD TERM From the Independent Republican.

The voters of Orange county have been very kind to Charles L. Mead. They bave honored him with two terms in the very lucrative office of County Treasurer. There is no reason why Mr. Mead should feel grieved if they should refuse to give him the third term he asked for and there is really no good reason in the world why he should be given a third term. If he is entitled to a third term why not a fourth, or a fifth, or to a life term? This is a good time to settle the third term question by voting for Edward Stocker.

Anderman-LANSING J. COLE. THIRD WARD. Supervisor—GEORGE W. GALLOWAY.

FOURTH WARD. Supervisor—JACOB O AUSTIN Alderman—JAMES E CAMPBELL. The election of James Boyd, the Demo-

eratic candidate for Superintendent of the Poor, will mean the reform of abuses in alms house officers, and such a reduction of expenditure on account of the poor fund that thousands of dollars will be saved to the taxpayers annually.

In 1897, under Republican rule, the aty tax levy was \$102,787. In 1898, under Democratic rule, it was only \$80,336. The saving to the taxpayers was \$22,451, and every dollar thus saved is a reason for continuing the Democrats in control of the city's affairs by electing the whole Democratic ticket.

City taxes in 1897, under Republican rule, \$102,778; city taxes, this year, under Democratic rule, \$80.336. Tax rate in 1897, \$25 82; tax rate, this year. \$20. Isn't it for your interest to vote for Democratic candidates for city offices and continue the policy of economical expenditures and lower taxes inaugurated under Democratic rule?

If Samuel D. Roberson is elected to Congress he will prove himself a faithful, conscientious, hard working representative. His chiefest concern will be the welfare of the people. The high sense of duty that has influenced all his official acts while a member of the Board of Supervisors will influence him in dealing with the more important questions that will come before the estion's legislature, and in everything that he does be will keep the people's interests in view.

In New York city odds of 5 to 4 are being given on Van Wyck. An offer of \$25,000 to \$20,000 that Van Wyck

night, without takers. Richard Croker. who it must be admitted by all who knows something about politics, has wagered \$40,000 on Van Wyck.

Compare your city taxes this year, under Democratic rule, with what they were last year under Republican rule. You'll find in the smaller sum taken from your pocket this year a good many very excellent reasons for voting the Democratic city ticket and continuing the policy of economical expenditure and lower taxes.

Gov. Black, forced on the stump by the exigencies of the Republican campaign, made a speech in New York city, Monday. He eulogized his own administration of State affairs, made an elaborate defense of Alger and toward the close of his remarks made a cold and formal allusion to Roosevelt. It isn't likely that Roosevelt's campaign managers will insist on any more speeches from Black.

Ed. Tompkins' interest in this election centers in Louis Bedell. He would be willing to let everything else slide if he could be sure of pulling through his Goshen friend. He is making every possible effort in his behalf, but he doesn't seem to be making much headway. Scores of Republicans voted against Mr. Bedell last year because of the company he keeps, and they will do the same this vear. Anti-machine Republicans, who hold Mr. Tompkins responsible for the slights and insults to which they have been subjected will not line up behind Mr. Tompkins' candidate.

J. Floyd Halatend, the Democratic candidate for Special Surrogate, ought to receive a very large vote. He is a rising young lawyer, and in every way qualified for the discharge of all the duties that may devolve upon him. His opponent is a lifelong officeholder, whose latest and "softest snap" was appointment as counsel to the Middletown State Hospital, an office created by a Republican legislature to make a place for some hungry lawyer. There is no sense in giving Mr. Sweezey another term as Special Surrogate. Retiire him to private life, and give some one else a show. Vote for Mr. Halstead.

Charles L. Mead has been county treasurer for six years and has had thousands of dollars from Orange county, but he isn't satisfied. He is going about begging for votes, which is only another way of begging for more salary and more fees. Hundreds of Republicans say openly that he has had enough, that it is time he took his feet out of the trough and since he won't do it voluntarily they propose to try and make him do it by voting against him. The defeat of Mr Mead, this year, would be a good thing for Orange county politics. It would end for all time third term nominations for county offices. A vote for Edward Stocker for county treasurer is a vote gainst a man who doesn't know when he's had more than his share.

Under Republican rule the expenses of Orange county's coroners have enormously increased. Those who are most familiar with the matter say that inquests are held when no inquests are necessary and are prolonged by needless adjournments; autopsies are needlessly ordered as in the case of the Meyer children drowned near this city; more jurors are empaneled than are necessary. The result is that coroners' expenses mount up to many thousands of dollars each year. The people have a chance to end these abuses by defeating the Republican candidates, Harding and Perrott, who are seeking re-election, and turning this important office over to their Democratic opponents, Dr. Gillson and J. H. Chapman, who will not needlessly add a single dollar to the people's burdens.

POLITICAL NOTES.

--Charles L. Elwood's election to the mayoralty is generally conceded by Republicans, but his friends should not forget that his present illness prevents his seeing many of his friends, and that the work of a campaign should not cease until the polls close.

-Realizing that the attention of autimachine men in the Second Ward is directed mainly at Charles J. Boyd, an effort is being made to coax Democrats to vote for Bedell for the Assembly, the promoters promising to support Mr. Giles' candidacy for supervisor. Democrats should do their duty to the very commendable nominees on their ticket.

-The cry after election in this city may be for several weeks: "You may be ahead now, but just wait until you hear from Honolulu." Those Honolulu votes are destined to cut considerable ice when they reach here. Ex-Lieut. Geo. E. Wallace will doubtless receive every one of the soldier votes for city treasurer.

OCCUPATION OF CUBA.

Col. Waring's Donth Mas Made No Change in the Plans of the War Be-

BY ASSOCIATED PRESS. WASSINGTON, Nov. 1 .- There has been no change in the plans of the War Department respecting the sending of troops to Cuba. No date has been fixed when the troops shall depart. The only thing that has been determined upon is that the control of the island shall pass

to the United States on January 1.

The attempt to make it appear that the death of Col. Waring from yellow fever has changed the plans of the department is without basis. When Gen. Lee was in Washington the earliest date he recommended for sending troops to Cuba was Nov. 15th and hedid this with several reservations, suggesting that only a small number be sent and to particular places where there was little danger of disease and fever.

The War Department does not wish to have any conflict with Spanish troops as to the occupation of towns, and therefore desires to send the United States troops into Cuba only a short time before the Spanish troops evacuate. Owing to climatic conditions the United States has not been pressing for immediate evacuation, requesting only that reasonable progress should be made by the Spanish authorities.

Her screams attracted ber husband, and while he was trying to tear the burning clothing from her bis own apparel caught fire. Neighbors ran to their assistance but before the flames was extinguished both were horribly

DEMOCRATIC RALLY IN PORT JERVIS

A Very Large and Most Enthusiastic Meeting-Able Addresses-Vany Candidates Present

The Democrats of Port Jervis held a rousing meeting in the opera house in that village, Monday evening. The building was crowded to its fullest capacity, the attendance being estimated at not less than 1,000 persons.

The speakers were Elliot Dauforth, candidate for Lieutenant Governor, Senator Jacob Cantor and ex-Dairy Commissioner Fred C. Schraub. Samuel D. Roberson, Will Quaid, Edward Stocker, James Boyd and other Democratic candidates were present at the meeting.

The speakers and candidates were escorted from their hotel to the operaouse by a large number of prominent Port Jervis Democrats, headed by the Erie Band. The streets through which the procession marched were illuminated with red fire and there were many demonstrations of popular enthusias...

The speakers were listened to with the closest attention and their addresses were frequently interrupted by applause. The arguments of the several speakers were earnest and convincing and the meeting, which was one of the best ever held in Port Jervis, cannot fail to be productive of good results.

HALLOWE'EN TRICKS.

Police Vigilance Kept the Boys in Check-A Dummy on the Street Car Track.

The youngsters of this city had prepared to celebrate Hallowe'en in the wildest kind of a way, but Capt. Veber's full force went on duty, at 6 o'clock, in civilian's clothes. The table in court, today, was covered with beans, stuffed clubs, masks, etc., taken from the boys early in the evening. Despite the efforts of the police, however a few wagon wheels swung on lamp posts and a few gates swung not at all, and their owners

The most fun that the boys had was with the dummy figure of a man which they placed on the street railroad track and which caused the motormen of several cars to apply brakes and use their reversing levers. And possibly they weren't mad when they found how they had been fooled; and how the boys did enjoy their wrath.

Some reckless youth threw a piece of tile pipe nbrough a glass front door on Smith street.

A JUDICIAL FIGHT.

Serious Trouble Between State and Federal Judges in West Virginia. CHARLESTON, W Va., Nov 1 .-- A serious clash between federal and s a e judicial authorities is expected here. Maynard F Stiles, attorney for Henry King of New York, obtained from the United States court here an injunction to inhibit the sheriff of Logan county from selling the land of his client for taxes Judge Doolittle of the circuit court of Logan county issued a rule against Stiles for contempt After hearing Stiles' answer to the ruling Judge Doolittle committed stiles to fail to emain there until injunction proceedings in the federal court were dismissed. Stiles was placed in the county jail, and an application was made to Judge Jackson for a writ of habeas corpus, which Judge Jackson issued, and a deputy marshal was sent to bring Stiles before the federal court. The sheriff and jailer refused, under instructions from Judge Doolittle, to deliver the prisoner to United States officers, and the officer having reported to court yesterday Judge Jackson was asked to issue a writ of attachment against the sheriff and jailer, the effect of which was to bring those officers with their prisoner before court Attorney General Rucker of this state requested Judge Jackson to delay issuing the writ until he can communicate with Judge Doolittle, which Judge Jackson agreed to do

If Judge Doolittle refuses to give up the prisoner, an attachment will issue, and if the United States officers are resisted United States troops may be called on to suppress the rebellion.

To be idle is the hardest of all tasks Our grandmothers understood this and even in their leisure moments

that does not appear upon the surface Our grandmothers were healthy wo-men, imbued with a spirit of ambithat would not permit them to

be idle. If many modern less active and more given to idleness than the stately dames of yore, it is because they enjoy a smaller measure of good health. A woman who suffers from weakness and disease of the distinctly feminine organs, who is racked with pain, and tortured with headaches and nervousness, cannot be active and helpful Idleness and invalidism are the natural results of suffering of this description. The poor invalid woman is not at fault, save in her ignorance of her own physical make-up or neglect of her woman is health.

womanly health Thousands of women are neglectful in this way because they shrink from the embarrassing examinations and local treatment insisted upon by the majority of obscure physicians. Dr R. V. WHERE RESPONSIBILITY RESTS.

A tooond Ward Independent on the Nomination of Louis Redell.

A Second Ward Republican, who is outspoken in his kostility to Bedell, was approached by one of Boss Tompkins's emissaries who appealed to him to support the boss's candidate on the ground that a United States Senator is to be elected and that every vote might be acceded. The answer of the anti-machine man, which is worth consideration by Republicans who would like to vote against Bedell but who have been made to fear that a vote against him may involve too much, was to this

"The control of the Legislature on joint ballot will not depend on the result in this Senatorial and Assembly district. No one knows this better than the Republican bosses who are trying to coax and bully independent voters into supporting this man Bedell, who has made himself odious to all except the bosses and their friends and who was nominated in spite of the protects of hundreds of independent Republicans. If this Assembly district is lost, responsibility will not rest on self-respecting independents who vore against Mr. Bedell, but on the mea who run the Republican party on the rn! or ruin plan and who deliberately im writed a district which would have b we absolutely safe for the Republicans with any other candidate by nominating an unpopular man, whose weakness had been shown by his defeat last year."

St. Paul's Episcopal Church, Chester, was filled to overflowing on Sunday afternoon at the regular evening service, the occasion being the visit of Bishop Potter to the church to administer the rite of confirmation.

The service was conducted by the rector, Rev. J. Holmes McGuinness, and his assistant, Rev. Joseph Smythe.

The class consisted of eight members and after Bishop Potter had confirmed them, he spoke on "Confirmation" and extended words of congratulation to the rector and his parishoners for the grand success that had blessed them in their noble work of establishing the church.

Several visitors from Arden and our siste: villages were in attendance on the

A SIGNAL SUCCESS.

Tenth Convention of the Belaware Valley Musical Association, From Our Culli oon Correspondent.

The tenth convention-October 25-28 -of the Delaware Valley Musical Assoristion, under the leadership of Prof. Sophia, of Susquehanna, at Callicoon Depot, closed its session, Friday evening, by giving a concert, which, for diversity and excellence, excelled all its previous efforts.

The convention, from first to last, was a signal success; calling together not only its own members but also collisting | dates 1746 (when the carp is said to the aid of a number of musically inclined amuteurs and the active support of many non-musical citizens of prominence from towns along the river. The unbounded hospitality of the good people of the village, who opened their houses for the entertainment of the singers, cannot be too highly commended.

An Old Mortgage.

From the Newburgh Telegram.

The mortgage on the Sergeant Owens farm, wear Highland Falls, is being foreclosed. The interest has not been paid in forty-three years, and the original Ican of \$1,000 now amounts to over \$6,000.

Italians Laughing at a Would-Be Boss The Icalians in the First Ward are particularly enthusiastic for the Democratic ticket this tall. The leaders are laughing at the efforts of one, Maggio, who is seeking to pose as a Republican boss to instruct those whom he thinks are more ignorant than himself to vote the Republican ticket.

They Blacredit Themselves in Their Letters, Belittie Their Jwn and Other Satirond Organizations and in Effect tdmit All That Mr. Keele Charged, James E. Brazee and George Baker

made sorry work of their replies to P. F. Keefe. They seek to excuse their betrayal of Mr. Keefe's candidacy and their violation of the instructions of the organizations they were supposed to represent by discrediting themselves and their own and the allied organizations of railroad men. They say in effect that they went to Albany to try and banco the Governor into appointing and the Senate into confirming a man as railroad commissioner who represented nothing and nobody. According to their our story they were willing to declare Mr. Keefe to be the candidate of the railroad organizations of the State when in fact he was not. In plain English, they say they went to Albany to try and lie Mr. Keefe's appointment through.

They assail the regularity of the conventions at which Mr. Keele was selected as the railroad men's candidate, but they know that they were regularly and legally called and were more numerously attended than such conventions usually are.

All the letters that Brazee and Baker can write cannot explain away the ugiy fact that they were sent to Albany to urge Mr. Keele's appointment as railroad commissioner, and that after much hobnobbing with Mr. Goodsell and other Republican politicians, they landed Mr. Keele outside the breatworks and Mr. Brazee in the Grade Crossings Bureau.

A SCALY CENTENARIAN.

An Aged One-Eyed Carp in England Which is Said to Have a Long Record.

Stories, more or less vouched for, of fish which have attained extreme old age are common. Who, for instance, has not read of the capture of fish bearing plates with inscriptions to notify that they had been previously captured and returned to the water centuries before? But to these stories the average piscator, rendered weary by experience of the class of anecdotes which anglers relate to each other, usually lends little credence, says the London Globe. It seems, however, that in the pond of Emmanuel college, Cambridge, there dwell four carp, concerning one of which there is fairly strong circumsigntial evidence to prove that it is nearly 150 years old. It has only one eye, and Rev. A. G. L. Bowling recollects a one-eved carp in the same pond in 1367 which, he was told at the time, was over 100 years old. Since then he has discovered in Sir John Hawkins' edition of "Walton's Compleat Angler," published in 1791, a footnote quoting an article of a daily paper published in August, 1782, to the effect that "in the basin of Emmanuel college, Cambridge, a carp was then living that had been in the water 36 years, which, though it had lost one eye, knew and would constantly approach its keeper. There are, of course, large gaps between the have been placed in the water), 1782, 1867 and 1893. But, seeing that in 1782 a one-eyed carp was then credited with 36 years of residence, that in 1867 a oneeyed carp said to be "over 100 years old" was still there, and that a one-eyed carp, believed to be of great age, is there still, the conclusion is natural that it has been the same one-eyed carp all the time.
